## **NINL Continues Record Breaking Production**

**N**eelachal Ispat Nigam Limited (NINL) continued with the record breaking production in the present fiscal with registering 2.92 lakhs ton Hot Metal during the May-August period. With this, NINL achieved another feat by logging highest monthly average production of 73000 ton hot metal during the last four months surpassing the previous best average production of 59475 ton during 2014-15 campaign. NINL produced 64094 ton Hot Metal in the last month to register the highest August-monthly production since inception. Shri S.S. Mohanty, Vice-Chairman & MD, NINL, congratulated NINL collective for setting new production benchmarks regularly and encouraged further to aim for greater heights. NINL set to commence its own brand Billet production within a month and convert it to TMT Bars and Rods this year. The company's captive mines is going to be operationalised in third quarter of this Financial Year which will be a game changer for the company.
