

NINL Kalinga Nagar plant records best-ever monthly production

STATESMAN NEWS SERVICE

JAJPUR, 1 AUGUST

Neelachal Ispat Nigam Limited (NINL) posted best ever monthly production in July 2018 at its Kalinga Nagar plant. The company registered 83690 ton Hot Metal and 76687 ton Pig Iron in July which is best monthly production of the company since its inception.

The company achieved the feat surpassing the recent record production of 74960 ton Hot Metal and 69780 ton Pig Iron in June this year.

The company also clocked the highest Sinter production of 132990 ton in July sur-

passing its previous best of 123300 ton in April, 2013, said a release .

S.S. Mohanty, Vice-Chairman & MD, NINL congratulated NINL collective for the achievement and encouraged further to set new bench-

mark in future.

After successful completion of major overhauling of Blast Furnace, which established international bench mark in reaching the rated production in 12 days after blow-in, NINL recorded shift, daily, weekly and monthly production records in the last three months.

NINL will commence Billet production within a month and convert it to TMT bars and Wire Rods through conversion basis this year.

NINL's captive mines will be operationalised in third quarter of this fiscal which will be a game changer for the company.
